Honorable President & Members of the Greenwich Board of Education
Greenwich School District
Greenwich, New Jersey 08323

Dear Board Members:

The comprehensive annual financial report of the Greenwich Township School District for the fiscal year ended June 30, 2015, is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Greenwich Board of Education. To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart and a list of principal officials. The financial section includes the general purpose financial statements and schedules, as well as the auditor's report thereon. The statistical section includes selected financial and demographic information, generally presented on a multi-year basis. The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act Revisions of 1996 and the U.S. Office of Management and Budget Circular A-133, "Audits of States, Local Governments and Non-Profit Organizations", and the State Treasury Circular Letter 04-04 OMB, "Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid Payments. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

1) REPORTING ENTITY AND ITS SERVICES: Greenwich School District is an independent reporting entity within the criteria adopted by the GASB as established by GASB Statement No. 14. All funds and account groups of the District are included in this report. The Greenwich Board of Education and all its schools constitute the District's reporting entity.

The District provides a full range of educational services appropriate to grade levels K through 8. These include regular, as well as special education for handicapped youngsters. The district completed the 2014-2015 fiscal year with an enrollment of 61 students. The following details the changes in the student enrollment of the District over the last ten years.

Average Daily Enrollment

Fiscal Year	Student Enrollment	Percent Change
2014-15	61	(6.15%)
2013-14	65	(12.16%)
2012-13	74	(5.37%)
2011-12	78.2	2.89%
2010-11	76	1.14%
2009-10	69	(14.8%)
2008-09	81	0.74%
2007-08	81	2.54%
2006-07	78	8.49%
2005-06	86	1.38%

2) ECONOMIC CONDITION AND OUTLOOK: The Greenwich area is experiencing a period of no development or expansion. The township consists primarily of residential and agricultural property. Lack of ratables impacts negatively on the tax rate for residents.

3) MAJOR INITIATIVES: Greenwich Township School District is continuing to use the economies of scale generated by its alliance with Stow Creek Township in the Greenwich-Stow Creek Partnership Schools to enhance the quality of instruction and the educational opportunities available to the children of both districts while reducing costs.

Greenwich Township is continuing its major technology initiatives this year. The district is in the second year of a 1-to-1 laptop initiative in its middle school. Every student in Grades 5 through 8 has a state of the art touch screen laptop/tablet. Due to the spotty internet coverage in the area, the district chose laptops that had large (500 Gb) hard drives that could contain all of the students texts on the unit itself and not be reliant on internet connectivity for basic use. That said all of the student's texts are also interactive when online. This is the first year that the district has gone to completely digital textbooks.

The district is collaborating with the Educational Technology Training Center at Richard Stockton College to provide professional development to teachers in the use of the new technology. They are providing a technology infusion specialist to train our current technology teacher to work with our staff as an in-house technology infusion specialist. We have also opened this intensive hands-on training-the trainer to neighboring school districts to share the cost.

Greenwich is also expanding the integrated, global computerized information system installed four years ago. In addition to a complete Student Information System, Discipline system online, teacher lesson plans online, grade books, and teacher web-sites, we are utilizing a student statistics tool to drill down on the specific skills that our students need to improve their understanding of the subject area and a curriculum building tool to expedite our transition with the rest of New Jersey to the Common Core. We are also using this integrated system as the technology tool to go along with our newly adopted Danielson teacher evaluation model for the implementation on AchieveNJ. We are doing this in partnership with the six neighboring districts which make up the constituency of the local regional high school to allow us to reap considerable economies of scale in the required staff training.

We have adopted and are implementing the mandated Common Core Standards for Math and Language Arts. Significant staff training has been invested to attain the current level of success in this vital area.

We are continuing to enter into new collaborative relationships with surrounding districts and businesses. By negotiating as one larger entity and sharing those services and costs with Greenwich, Stow Creek has negotiated better contract terms with our Student Information System provider, our outsourced IT provider and our automated telephone contact system provider, as well as others. Greenwich shares a Guidance Counselor two days per week with the regional high school, as well as our numerous shared services with Stow Creek in the partnership. We also share a Spanish teacher and a music teacher with two neighboring districts.

In conclusion, the School District has committed itself to educational excellence and continued parsimony. The new collaborations are allowing Greenwich to provide better and new educational services to our children and keep costs in check. Greenwich is taking the steps necessary to keep up with today's changing economic and regulatory conditions and still provide a world-class education for the children of Greenwich Township.

Greenwich Township School District is continuing to use the economies of scale generated by its alliance with Stow Creek Township in the Greenwich-Stow Creek Partnership Schools to enhance the quality of instruction and the educational opportunities available to the children of both districts while reducing costs.

4) INTERNAL ACCOUNTING CONTROLS: Management of the District is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the District are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles (GAAP). The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the District also is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is also subject to periodic evaluation by the District management.

As part of the District's single audit described earlier, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state financial assistance programs, as well as to determine that the District has complied with applicable laws and regulations.

5) BUDGETARY CONTROLS: In addition to internal accounting controls, the District maintains budgetary controls. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the voters of the municipality. Annual appropriated budgets are adopted for the general fund, the special revenue fund, and the debt service fund. Project-length budgets are approved for the capital improvements accounted for in the capital projects fund. The final budget amount as amended for the fiscal year is reflected in the financial section.

An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are either canceled or are included as reappropriations of fund balance in the subsequent year. Those amounts to be reappropriated are reported as reservations of fund balance at June 30, 2015.

6) ACCOUNTING SYSTEM AND REPORTS: The District's accounting records reflect generally accepted accounting principles, as promulgated by the Governmental Accounting Standards Board (GASB). The accounting system of the District is organized on the basis of funds and account groups. These funds and account groups are explained in "Notes to the Financial Statements", Note 1.

7) FINANCIAL INFORMATION AT FISCAL YEAR-END: As demonstrated by the various statements and schedules included in the financial section of this report, the District continues to meet its responsibility for sound financial management. The following schedule presents a summary of the general fund and the special revenue fund for the fiscal year ended June 30, 2015 and the amount and percentage of increases in relation to prior year revenues.

Revenue	Amount	% of Total	Increase/(Decrease) for June 30, 2015	Percent of Increase/(Decrease)
Local Sources	\$ 820,516.	57.96%	\$ 27,924.	3.40%
State Sources	531,614.	37.55%	13,865.	2.61%

The following schedule presents a summary of general fund, special revenue fund and debt service fund expenditures for the fiscal year ended June 30, 2015 and the percentage of increases and decreases in relation to prior year amounts.

Expenditures	Amount	% of Total	Increase/(Decrease) for June 30, 2015	Percent of Increase/(Decrease)
Current Expense:				
Instruction	\$ 570,303.	40.78%	\$ 36,126.	6.33%
Undistributed Expend	828,176.	59.21%	(105,468.)	-12.73%
Capital Outlay	136.	0.01%	0.	0.00%

Total	<u>\$ 1,398,615.</u>	100.00%	<u>\$ (69,342.)</u>	-4.96%

8) CASH MANAGEMENT: The investment policy of the District is guided in large part by state statute as detailed in "Notes to the Financial Statements", Note 2. The district has adopted a cash management plan which requires it to deposit public funds in public depositories protected from loss under the provisions of the Governmental Unit Deposit Protection Act ("GUDPA"). GUDPA was enacted in 1970 to protect Governmental Units from a loss of funds on deposit with a failed banking institution in New Jersey. The law requires governmental units to deposit public funds only in public depositories located in New Jersey, where the funds are secured in accordance with the Act.

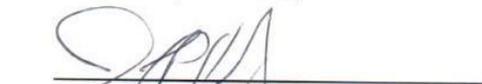

9) RISK MANAGEMENT: The Board carries various forms of insurance, including but not limited to general liability, automobile liability and comprehensive/collision, hazard and theft insurance on property and contents, and fidelity bonds.

10) OTHER INFORMATION:

Independent Audit - State statutes require an annual audit by independent certified public accountants or registered municipal accountants. The accounting firm of Triantos & Delp, CPA's, LLC was selected by the Board. In addition to meeting the requirements set forth in state statutes, the audit also was designed to meet the requirements of the Single Audit Act Revisions of 1996 and the related OMB Circular A-133 and State Treasury Circular Letter 04-04 OMB. The auditor's report on the general purpose financial statements and combining and individual fund statements and schedules is included in the financial section of this report. The auditor's reports related specifically to the single audit are included in the single audit section of this report.

10) ACKNOWLEDGMENTS: We would like to express our appreciation to the members of the Greenwich School Board for their concern in providing fiscal accountability to the citizens and taxpayers of the school district and thereby contributing their full support to the development and maintenance of our financial operation. The preparation of this report could not have been accomplished without the efficient and dedicated services of our financial and accounting staff.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

The Honorable President and
Members of the Board of Education
Greenwich Township School District
County of Cumberland, New Jersey

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Board of Education of the Greenwich Township School District in the County of Cumberland, in the State of New Jersey, as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Board of Education's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standard applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Greenwich Township Board of Education in the County of Cumberland, State of New Jersey, as of June 30, 2015, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

INDEPENDENT AUDITOR'S REPORT

(Continued)

Changes in Accounting Principle

As described in Note 1 to the financial statements, in 2015, the Downe Township Board of Education adopted new accounting guidance, GASB Statement No. 68, *Accounting and Financial Reporting for Pensions – an amendment of Statement No. 27*. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Budgetary Comparison Information, Schedules Related to Accounting and Reporting for Pension, and Notes to the Required Supplemental Information on pages 43 through 55 and 56 be presented to supplement the basic financial statements. Such information, although not part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's response to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Greenwich Township Board of Education's basic financial statements. The accompanying introductory information and other supplementary information such as the combining and individual fund financial statements, and statistical information are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and long-term debt schedule are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and long-term debt schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The accompanying schedules of expenditures of federal awards and state awards are presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations, and New Jersey OMB's Circular 04-04, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid, respectively, and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of expenditure of federal and state awards are fairly stated in all material respects in relation to the financial statements as a whole.

INDEPENDENT AUDITOR'S REPORT
(Continued)

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2015 on our consideration of the Greenwich Township Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters.

The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Greenwich Township Board of Education's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Greenwich Township Board of Education's (GTBOE) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2015. Please read it in conjunction with the transmittal letter at the front of this report and the District's financial statements, which immediately follow this section.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts - management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the district.

- The first two statements are *district-wide financial statements* that provide both *short-term and long-term* information about the District's *overall* financial status.
- The remaining statements are *fund financial statements* that focus on *individual parts* of the District, reporting the District's operations in more detail than the district-wide statements.
- The *governmental funds* statements tell how *basic* services like regular and special education were financed in the *short term* as well as what remains for future spending.
- *Proprietary funds* statements offer *short and long-term* financial information about the activities of the district operates *like businesses*.
- *Fiduciary funds* statements provide information about the financial relationships in which the District acts solely as a *trustee or agent* for the benefit of others.

The financial statements also include *notes* that explain some of the information in the statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the financial statements with a comparison of the District's budget for the year.

Type of asset/liability Information	All assets and liabilities both financial and capital, short-term and long term	Generally assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets or long-term liabilities included	All assets and liabilities both financial and capital and short-term and long-term	All assets and liabilities both short-term and long-term; DTBOE's funds do not currently contain capital assets, although they can
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year expenditures when goods or services have been received and the related liability is due and payable	All revenues and expenses during the year, regardless of when cash is received or paid	All additions and deductions during the year, regardless of when cash is received or paid

Figure A-1 summarizes the major features of the District's financial statements, including the portion of the District's activities they cover and the type of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

District-wide Statements

The district-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net assets includes all of the District's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two district-wide statements report the District's *net assets* and how they have changed. Net assets - the difference between the District's assets and liabilities - are one way to measure the District's financial health or *position*.

- Over time, increases or decreases in the District's net assets are an indicator of whether its financial position is improving or deteriorating, respectively.
- To assess the overall health of the District, you need to consider additional non-financial factors such as changes in the District's property tax base and the condition of school building and other facilities.

In the district-wide financial statements, the District's activities are divided into two categories:

- *Governmental activities* - Most of the District's basic services are included here, such as regular and special education, transportation, and administration. Property taxes and state formula aid finance most of these activities.
- *Business-type activities* - The District charges fees to help it cover the cost for certain services it provides. The District's food services program is included here.

Fund Financial Statements

The fund financial statements provide more detailed information about the District's *funds*, focusing on its most significant or "major" funds - not the District as a whole. Funds are accounting devices the District uses to keep track of specific sources of funding and spending on particular programs:

- Some funds are required by State Law and by bond covenants.
- The District establishes other funds to control and manage money for particular purposes (like completing approved capital projects) or to show that it is properly using certain revenues (like federal grants).

The District has four kinds of funds:

- *Governmental Fund* - Most of the District's basic services are included in governmental funds, which generally focus on (1) how *cash and other financial assets* that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed *short-term* view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. Because this information does not encompass the additional long-term focus of the district-wide statements, we provide additional information with the governmental funds statements that explains the relationship (or differences between them).
- *Proprietary funds* - Services for which the District charges a fee are generally reported in proprietary funds. Proprietary funds are reported in the same way as the district-wide statements. In fact, the District's *enterprise funds* (one type of proprietary fund) are the same as its business-type activities, but provide more detail and additional information, such as cash flow.
- *Internal service funds* (the other kind of proprietary fund) are utilized to report activities that provide supplies and services for the District's other programs and activities and for other Districts (student transportation).

- *Fiduciary funds* - The District is the trustee, or *fiduciary*, for assets that belong to others, such as the scholarship fund and the student activities funds. The District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. We exclude these activities from the district-wide financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (in thousands)

Net assets. The District's *combined* net assets are \$175 on June 30, 2015 (see Table A-1). Business-type activities net assets are \$(28).

See Attached Table A-1

Changes in net assets. The District's total revenues are \$1,580 for the fiscal period ending June 30, 2015 (see Table A-2). Property taxes and state formula aid accounted for 81% of the District's revenue. 16% is derived from state and federal aid for specific programs, and the remainder, 3% from fees charged for services and miscellaneous resources.

See Attached Table A-2

The District's expenses are predominantly related to educating and caring for students 55%. The purely administrative activities of the District accounted for 6% of total costs. Salary increases due to contractual agreements for teachers and other educational staff are included in the instruction-related costs. Total expenses surpassed revenues, decreasing net assets approximately \$12 from last year, primarily in governmental activities.

Governmental Activities (in thousands)

Revenues for the District's governmental activities amounted to \$1,521. Total expenses amounted to \$1,535. The decrease in net assets in governmental activities was (\$14) for 2015.

Business-type Activities (in thousands)

Revenues of the District's business-type activities amounted to \$59 and expenses were \$57. Factors contributing to these results included:

- Food services received transfer from governmental activities of \$20.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

The financial performance of the District as a whole is primarily reflected in its governmental funds. As the district completed the year, its governmental funds reported *combined* balances of \$316. Tuition and other miscellaneous revenues were more than anticipated. The District also controlled expenditures.

General Fund Budgetary Highlights

Over the course of the year, the District revised the annual operating budget several times. These budget amendments were for the following purpose:

- Transfers between budgetary line accounts to prevent overruns.

The District's final budget anticipated utilizing \$59 in fund balance and \$10 of prior year encumbrances to fund the appropriation plan for this fiscal period. The actual results of operations decreased the general fund balance \$3.

Actual expenditures for capital outlay amounted to \$0 in the Operating Fund and \$0 in the Capital Project Fund.

CAPITAL ASSET AND DEBT ADMINISTRATION (in thousands)

Capital Assets

By the end of 2015, the District had invested \$5,475 in a broad range of capital assets, including school buildings, athletic facilities, computer and audiovisual equipment, and administrative offices. (See Table A-3) (More detailed information about capital assets can be found in Note 6 to the financial statements.) Total depreciation expense for the year was \$11 while building improvements and additions to equipment and furniture amounted to \$0.

See Attached Table A-3

Long-term Debt

At year-end, the District had outstanding bonds in the amount of \$0 and capital lease principal of \$0. (More detailed information about long-term debt can be found in Note 8 to the financial statements.)

The state limits the amount of general obligation debt the District can issue to 3 percent of the equalized valuation of all taxable property within the District. The current limit is \$2,719 of which \$2,719 is available for the issuance of debt.

FACTORS BEARING ON THE DISTRICT'S FUTURE

Greenwich Township School District is continuing to use the economies of scale generated by its alliance with Stow Creek Township in the Greenwich-Stow Creek Partnership Schools to enhance the quality of instruction and the educational opportunities available to the children of both districts while reducing costs.

Greenwich Township is continuing its major technology initiatives this year. The district is in the second year of a 1-to-1 laptop initiative in its middle school. Every student in Grades 5 through 8 has a state of the art touch screen laptop/tablet. Due to the spotty internet coverage in the area, the district chose laptops that had large (500 Gb) hard drives that could contain all of the students texts on the unit itself and not be reliant on internet connectivity for basic use. That said all of the student's texts are also interactive when online. This is the first year that the district has gone to completely digital textbooks.

The district is collaborating with the Educational Technology Training Center at Richard Stockton College to provide professional development to teachers in the use of the new technology. They are providing a technology infusion specialist to train our current technology teacher to work with our staff as an in-house technology infusion specialist. We have also opened this intensive hands-on training-the trainer to neighboring school districts to share the cost.

Greenwich is also expanding the integrated, global computerized information system installed four years ago. In addition to a complete Student Information System, Discipline system online, teacher lesson plans online, grade books, and teacher web-sites, we are utilizing a student statistics tool to drill down on the specific skills that our students need to improve their understanding of the subject area and a curriculum building tool to expedite our transition with the rest of New Jersey to the Common Core. We are also using this integrated system as the technology tool to go along with our newly adopted Danielson teacher evaluation model for the implementation on AchieveNJ. We are doing this in partnership with the six neighboring districts which make up the constituency of the local regional high school to allow us to reap considerable economies of scale in the required staff training.

We have adopted and are implementing the mandated Common Core Standards for Math and Language Arts. Significant staff training has been invested to attain the current level of success in this vital area.

We are continuing to enter into new collaborative relationships with surrounding districts and businesses. By negotiating as one larger entity and sharing those services and costs with Greenwich, Stow Creek has negotiated better contract terms with our Student Information System provider, our outsourced IT provider and our automated telephone contact system provider, as well as others. Greenwich shares a Guidance Counselor two days per week with the regional high school, as well as our numerous shared services with Stow Creek in the partnership. We also share a Spanish teacher and a music teacher with two neighboring districts.

In conclusion, the School District has committed itself to educational excellence and continued parsimony. The new collaborations are allowing Greenwich to provide better and new educational services to our children and keep costs in check. Greenwich is taking the steps necessary to keep up with today's changing economic and regulatory conditions and still provide a world-class education for the children of Greenwich Township.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. If you have questions about this report or need additional financial information, contact the Gary R. Moore, Business Administrator, Greenwich Township Board of Education, 839 Ye Greate Street, Greenwich, NJ 08323.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES,
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2015

Total net changes in fund balances - governmental funds (from B-2)		\$ (3,346.)
Amounts reported for governmental activities in the statement of activities (A-2) are different because:		
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense.		
This is the amount by which capital outlays exceeded depreciation in the period.		
	Depreciation expense \$ (11,097.)	
	Capital outlays <u>0.</u>	(11,097.)
Repayment of capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets and is not reported in the statement of activities.		0.
Proceeds from debt issues are a financing source in the governmental funds. They are not revenue in the statement of activities; issuing debt increases long-term liabilities in the statement of net assets.		
Proceeds of long-term debt	0.	
Capital lease proceeds	<u>0.</u>	0.
In the statement of activities, certain operating expenses, e.g., compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is reduction in the reconciliation (-); when the paid amount exceeds the earned amount the difference is an addition to the reconciliation (+).		1,601.
In the statement of activities, the disposition of certain equipment results in a loss because the equipment still had a book value at the time of disposition. In the governmental funds, this item is not reported because there were no proceeds received.		0.
Increase in pension expense		(127,426.)
Increase in on-behalf pension payments		<u>125,874.</u>
Change in net assets of governmental activities		<u>\$ (14,394.)</u>

NOTES TO FINANCIAL STATEMENTS

**GREENWICH TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY

A. Reporting Entity:

The Greenwich School District is a Type II district located in the County of Cumberland, State of New Jersey. As a Type II District, the School District functions independently through a Board of Education. The Board is comprised of nine (9) members elected to three (3) year terms. These terms are staggered so that three (3) members' terms expire each year. The purpose of the District is to educate students in grades K-8. The Greenwich Township School District had an approximate enrollment at June 30, 2015 of 61 students.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB *Codification of Governmental Accounting and Financial Reporting Standards*, is whether:

- the organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the organization
- the District appoints a voting majority of the organization's board
- the District is able to impose its will on the organization
- the organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the organization on the District

Based on the aforementioned criteria, the District had no component units.

B. New Accounting Standards:

During fiscal year 2015, the District adopted the following GASB statements:

- GASB 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27*. The objective of this statement is to improve accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local governmental employers about financial support for pensions that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision-useful information, supporting assessments of accountability and interperiod equity, and creating additional transparency. In addition, this Statement replaces the requirements of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this Statement. This Statement is effective for periods beginning after June 15, 2014. The adoption of GASB 68 and GASB 71 resulted in a restatement to reduce the total net position of governmental activities at June 30, 2014 by \$186,592.
- GASB 69, *Government Combinations and Disposals of Government Operations*. GASB 69 establishes accounting and financial reporting standards related to government combinations and disposals of government operations. As used in this Statement, the term government combinations includes a variety of transactions referred to as mergers, acquisitions, and transfers of operations. This Statement is effective for periods beginning after December 15, 2013. The adoption of this Statement does not have an impact on the District's financial statements.

**GREENWICH TOWNSHIP SCHOOL DISTRICT

NOTE 1. DESCRIPTION OF THE SCHOOL DISTRICT AND REPORTING ENTITY (Cont'd)

B. New Accounting Standards: (Cont'd)

- GASB 71, *Pension Transition for Contributions made Subsequent to the Measurement Date – an amendment of GASB Statement No. 68*. The objective of this statement is to address an issue regarding application of the transition provisions of Statement No. 68, *Accounting and Financial Reporting for Pensions*. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or nonemployer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability. The requirements of this Statement will eliminate the source of a potential significant understatement of restated beginning net position and expense in the first year of implementation of Statement 68 in the accrual-basis financial statements of employers and nonemployer contributing entities. This Statement is effective for fiscal years beginning after June 15, 2014. The adoption of GASB 68 and GASB 71 resulted in a restatement to reduce the total net position of the governmental activities at June 30, 2014 by \$186,592.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education (Board) of the Greenwich Township School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing the governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

In June, 1999, the Governmental Accounting Standards Board (GASB) unanimously approved Statement No. 34, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments*. This Statement provides for the most significant change in financial reporting over twenty years and is scheduled for a phase-in implementation period (based on amount of revenues) starting with fiscal years ending 2002 (for larger governments). In addition, the school district has implemented GASB Statement No. 37, *Basic Financial Statements and Management's Discussion and Analysis for State and Local Governments: Omnibus*, Statement No. 38, *Certain Financial Statement Note Disclosures*, GASB No. 54, *Fund Reporting and Governmental Fund Type Descriptions*.

A. Basis of Presentation:

The District's basic financial statements consist of District-wide statements, including a statement of net position and a statement of activities, and fund financial statements, which provide a more detailed level of financial information.

District Wide Statements: The statement of net position and the statement of activities display information about the financial activities of the overall district, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal activities. These statements distinguish between the *governmental* and *business-type activities* of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of net position presents the financial condition of the governmental and business-type activities of the District at the fiscal year end while the statement of activities presents a comparison between direct expenses and program revenues for each different business-type activity of the District and for each function of the District's governmental activities.

**GREENWICH TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

A. Basis of Presentation: (Cont'd)

- Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expenses-expenses of the District related to the administration and support of the District's programs, such as personnel and accounting-are not allocated to programs.
- Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes and state formula aid, are presented as general revenues.

Fund Financial Statements: During the fiscal year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category – *governmental*, *proprietary*, and *fiduciary* – are presented. The New Jersey Department of Education (NJDOE) has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among district financial reporting.

B. Fund Accounting:

The accounts of the District are maintained in accordance with the principles of fund accounting to ensure observance of limitations and restrictions on the resources available. The principles of fund accounting require that resources be classified for accounting and reporting purposes into funds or account groups in accordance with activities or objectives specified for the resources. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues and expenditures or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds and accounts are grouped in the financial statements in this report as follows:

GOVERNMENTAL FUNDS

The focus of the governmental funds' measurement (in the fund statements) is upon determination of financial position and changes in financial position (sources, uses and balances of financial resources) rather than upon net income. The following is a description of the governmental funds of the District:

General Fund: The general fund is the general operating fund of the District. It is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or non-instructional equipment which are classified in the Capital Outlay sub-fund.

As required by the New Jersey State Department of Education, the District includes budgeted Capital Outlay in this fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

**GREENWICH TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Fund Accounting: (Cont'd)

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, district taxes and appropriated fund balance. Expenditures are those that result in the acquisition of or additions to capital assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by board resolution.

Special Revenue Fund: The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund: The capital projects fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by proprietary funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

The District has no Capital Projects Fund.

Debt Service Fund: The debt service fund is used to account for the accumulation of resources for, and the payment of, principal and interest on bonds issued to finance major property acquisition, construction, and improvement programs.

The District has no Debt Service Fund.

PROPRIETARY FUNDS

The focus of Proprietary Fund measurement is upon determination of net income, financial position and cash flows. The generally accepted accounting principles applicable are those similar to businesses in the private sector. The following is a description of the Proprietary Funds of the District:

Enterprise Funds: The Enterprise Funds are utilized to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent of the District is that the costs (i.e. expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis be financed or recovered primarily through user charges; or where the District has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.

The District's Enterprise Funds is comprised of the Food Service Fund.

All proprietary funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net total position) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total assets.

**GREENWICH TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

B. Fund Accounting: (Cont'd)

PROPRIETARY FUNDS (Cont'd)

Depreciation of all exhaustive fixed assets used by proprietary funds is charged as an expense against their operations. Accumulated depreciation is reported on proprietary fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Food Service Fund:	
Equipment	12 years

Internal Service Fund: A fund used to account for the financing of goods or services provided by one department or agency to other departments or agencies of an LEA, or to other LEAs, on a cost-reimbursement basis.

The District has no Internal Service Fund.

FIDUCIARY FUNDS

Fiduciary Funds are used to report assets held in a trustee or agency capacity for others and therefore are not available to support District programs. The reporting focus is on net position and changes in net position and are reported using accounting principles similar to proprietary funds. The following is a description of the fiduciary funds of the District:

Trust and Agency Funds: The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

Expendable Trust Fund: An Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent. Expendable Trust Funds include Unemployment Compensation Insurance and scholarship funds.

Nonexpendable Trust Fund: A Nonexpendable Trust Fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal. The District does not maintain a nonexpendable trust fund.

Agency Funds: Agency funds are used to account for the assets that the District holds on behalf of others as their agent. Agency funds are custodial in nature and do not involve measurement of results of operations. Agency funds include payroll and student activities funds.

C. Basis of Accounting and Measurement Focus:

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements.

District-wide, Proprietary and Fiduciary Fund Financial Statements: The District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; the enterprise fund and fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of unearned revenue, and in the presentation of expenses versus expenditures. Ad Valorem

**GREENWICH TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

C. Basis of Accounting and Measurement Focus: (Cont'd)

(Property) Taxes are susceptible to accrual as under the New Jersey State Statute a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available.

The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "accounts receivable". Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method revenues are recognized when measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

In its accounting and financial reporting, the District follows the pronouncements of the Governmental Accounting Standards Board (GASB) and the pronouncements of the Financial Accounting Standards Board (FASB) and its predecessor organizations issued on or before November 30, 1989, unless they conflict with or contradict GASB pronouncements. The District's proprietary funds have elected not to apply the standards issued by FASB after November 30, 1989.

The accrual basis of accounting is used for measuring financial position the operating results of proprietary fund types and nonexpendable trust funds. Under this method, revenues are recognized in the accounting period in which they are earned and expenses are recognized when they are incurred.

D. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the general, special revenue, and debt service funds. The budgets are submitted to the county office for approval. Budgets are prepared using the modified accrual basis of accounting, except for the special revenue fund as described later. The legal level of budgetary control is established at line item accounts within each fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. Transfers of appropriations may be made by School Board resolution at any time during the fiscal year. The Board of Education did not make any material supplemental budgetary appropriations during the fiscal year.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the special revenue fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund types. Unencumbered appropriations lapse at fiscal year end.

**GREENWICH TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

D. Budgets/Budgetary Control: (Cont'd)

The accounting records of the special revenue fund are maintained on the grant accounting budgetary basis, which differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports.

A reconciliation of the special revenue funds from the budgetary basis of accounting (as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances – Budget and Actual – General, Special Revenue and Debt Service Funds) to the GAAP basis of accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances – All Governmental Fund Types are shown on Exhibit C-3.

E. Encumbrance Accounting:

Under encumbrance accounting purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the special revenue fund are reported as reservations of fund balances at fiscal year end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the special revenue fund for which the District has received advances are reflected in the balance sheet as unearned revenues at fiscal year end. The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year end.

F. Tuition Receivable:

Tuition charges were established by the Board of Education based on estimated costs. The charges are subject to adjustment when the final costs have been determined.

G. Tuition Payable:

Tuition charges for the fiscal years 2013-2014 and 2014-2015 were based on rates established by the receiving district. These rates are subject to change when the actual costs have been determined.

H. Short-Term Interfund Receivables/Payables:

Short-term interfund receivables/payables represents amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

I. Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the enterprise fund are recorded as an expenditure during the year of purchase.

On district-wide financial statements and in the enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2015.

J. Lease Acquisition Costs:

As part of any long-term lease agreement, providing for the use of school buildings, payments constituting professional lease acquisition and other related professional fees will be expensed when incurred in accordance with GASB Statement No. 65. There were no such leases for the year ended June 30, 2015.

K. Assets, Liabilities and Equity:

Transactions

Interfund receivables/payables represent amounts that are owed, other than charges for goods or services rendered to/from a particular fund in the District and that are due within one year.

Inventories

On district-wide financial statements and in the enterprise fund inventories are valued at cost, which approximates market, using the first-in-first-out (FIFO) method and is expended when used. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2015. There was inventory in the Food Service Fund at June 30, 2015 as shown on Exhibit G-1.

The value of Federal donated commodities as reflected on Schedule A (required by the Single Audit Law of 1986, as revised) is the difference between market value and cost of the commodities at the date of purchase and has been included as an item of non-operating revenue in the financial statements.

Capital Assets:

General fixed assets acquired or constructed during the year are recorded at actual cost. Donated fixed assets are valued at the estimated fair market value on the date received. The general fixed assets acquired or constructed prior to June 30, 2015 are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. General fixed assets are reflected as expenditures in the applicable governmental funds, and the related assets are reported in the general fixed assets account group. Expenditures that enhance the asset or significantly extend the useful life of the asset are considered improvements and are added to the fixed asset's currently capitalized cost. The cost of the normal repairs and maintenance are not capitalized. Assets in the general fixed assets account group are not depreciated.

Capital assets are depreciated in the district-wide financial statements using the straight-line method over the following estimated useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
Land Improvements	20 years
Building & Building Improvements	25-50 years
Machinery & Equipment	5-20 years

L. Accrued Salaries and Wages

Certain District employees who provide services to the District over the ten month academic year have the option to have their salaries evenly disbursed during the entire twelve month year. New Jersey statutes require that these earned but undisbursed amounts be retained in a separate bank account.

M. Compensated Absences:

Compensated absences are those absences for which employees will be paid, such as vacation, sick leave, and sabbatical leave. A liability for compensated absences that are attributable to services already rendered, and that are not contingent on a specific event that is outside the control of the District and its employees, is accrued as the employees earn the rights to the benefits. Compensated absences that relate to future services, or that are contingent on a specific event that is outside the control of the District and its employees, are accounted for in the period in which such services are rendered or in which such events take place.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

M. Compensated Absences: (Cont'd)

In governmental and similar trust funds, compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and fund liability in the fund that will pay for the compensated absences. The remainder of the compensated absences liability is reported in the district-wide Statement of Net Position.

In proprietary and similar trust funds, compensated absences are recorded as an expense and liability of the fund that will pay for them.

N. Unearned Revenue:

Unearned revenue in the special revenue fund represents cash that has been received but not yet earned.

O. Long-term Debt

The accounting treatment of long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the district-wide or fund financial statements.

All long-term debt to be repaid from governmental and business-type resources are reported as liabilities in the district-wide statements. The long-term debt consists primarily of bonds payable, capital leases, and accrued compensated absences.

P. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the enterprise fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the enterprise fund.

Q. Allocation of Indirect Expenses

The District reports all direct expenses by function in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function. Indirect expenses are allocated to functions but are not reported separately in the Statement of Activities. Depreciation expense, where practicable, is specifically identified by function and is included in the indirect expense column of the Statement of Activities. Depreciation expense that could not be attributed to a specific function is considered an indirect expense and is reported separately on the Statement of Activities. Interest on long-term debt is considered an indirect expense and is reported separately on the Statement of Activities.

R. Extraordinary and Special Items

Extraordinary items are transactions or events that are unusual in nature and infrequent in occurrence. Special items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

S. Fund Equity

Contributed capital represents the amount of fund capital contributed to the proprietary funds from other funds. Reserves represent those portions of fund equity not available for appropriation for expenditure or legally segregated for a specific future use. Designated fund balances represent plans for future use of financial resources.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

T. Comparative Data/Reclassifications

Comparative total data for the prior year have been presented in selected sections of the accompanying financial statements in order to provide an understanding of the changes in the District's financial position and operations. Also, certain immaterial amounts presented in the prior year data have been reclassified in order to be consistent with the current year's presentation.

U. Management Estimates

The preparation of financial statements in conformity with generally accepting accounting principles requires management to make estimates and assumptions that affect certain reported amounts of revenues and expenditures/expenses during the reporting period. Accordingly, actual results could differ from those estimates.

V. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the District-wide Financial Statements. Long-term debt is recognized as a liability of a governmental fund when due, or when resources have been accumulated in the debt service fund for payment early in the following year. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund.

W. Net Position

Net position represents the difference between assets plus deferred outflows of resources and liabilities plus deferred inflows of resources. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. Net positions are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the School District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments. It is the School District's policy to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

X. Fund Balance

The School District reports fund balance in classifications that comprise a hierarchy based primarily on the extent to which the School District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The School District's classifications, and policies for determining such classifications, are as follows:

Nonspendable: The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. The "not in spendable form" criterion includes items that are not expected to be converted to cash, such as inventories and prepaid amounts.

Restricted: The restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources either by being (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation.

**GREENWICH TOWNSHIP SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2015**

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

X. Fund Balance (Cont'd)

Committed: The committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purposes unless the Board of Education removes, or changes, the specific use by taking the same type of action (resolution) it employed to previously commit those amounts.

Assigned: The assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. *Intent* is expressed by either the Board of Education or by the business administrator to which the Board of Education has delegated the authority to assign amounts to be used for specific purposes. Such authority of the business administrator is established by way of a formal job description for the position, approved by the Board of Education.

Unassigned: The unassigned fund balance classification is the residual classification for the general fund. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the general fund. The general fund is the only fund that reports a positive unassigned fund balance amount. In other governmental funds, if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balances are available, it is the policy of the School District to spend restricted fund balances first. Moreover, when an expenditure is incurred for purposes for which amounts in any of the unrestricted fund balance classifications can be used, it is the policy of the School District to spend fund balances, if appropriate, in the following order: committed, assigned, then unassigned.

Y. Revenues – Exchange and Non-Exchange Transactions

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year end.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned.

Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or for the fiscal year when use is first permitted; matching requirements, in which the School District must provide local resources to be used for a specified purpose;

and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized. Under the modified accrual basis, the following revenue sources are considered both measurable and available at fiscal year-end: property taxes available as an advance, interest, and tuition.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS

Cash and cash equivalents includes petty cash, change funds, cash in banks and highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest.

Investments are stated at cost, or amortized cost, which approximates market. The Board classifies U.S. Treasury with Agency obligations and certificates of deposit, which have original maturity dates of more than three months but less than twelve months from the date of purchase, as investments stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions in which they may invest. N.J.S.A. 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts as follows:

- a.) Bonds or other obligations of the United States or obligations guaranteed by the United States.
- b.) Bonds or any Federal Intermediate Credit Bank, Federal Home Loan Bank, Federal National Mortgage Agency or of any United States Bank for Cooperatives which have a maturity date not greater than twelve months from the date of purchase.
- c.) Bonds or other obligations of the school district.

School districts are also permitted to deposit public funds in the State of New Jersey Cash Management Fund. As of June 30, 2015, the District had no funds on deposit with the New Jersey Cash Management.

Deposits:

N.J.S.A. 17:9-41, et seq, establish requirements for the security of deposits of governmental units. The statutes require that school districts deposit public funds in public depositories secured in accordance with the Governmental Unit Deposit Protection Act, which is a multiple financial institution collateral pool enacted in 1970 to protect governmental units from a loss of funds on deposit with a failed banking institution located in New Jersey, which are insured by the Federal Deposit Insurance Corporation, the Federal Savings and Loan Insurance Corporation, or by any other agency of the United States that insures deposits made in public depositories.

Public depositories include State or federally chartered banks, savings banks or associations located in or having a branch office in the State of New Jersey, the deposits of which are federally insured.

All public depositories must pledge collateral, having a market value at least equal to 5% of the average daily balance of collected public funds on deposit, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to Governmental Units.

All collateral must be deposited with the Federal Reserve Bank of New York, the Federal Reserve Bank of Philadelphia, the Federal Home Loan Bank of New Jersey, or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.

NOTE 3. CASH AND CASH EQUIVALENTS AND INVESTMENTS (Cont'd)

Deposits: (Cont'd)

The school district has adopted a cash management plan that requires it to deposit public funds in public depositories protected from loss under the Governmental Unit Deposit Protection Act and approves a list of authorized depository institutions based on an evaluation of solicited responses and presentation of GUDPA certifications provided by the financial institutions.

As of June 30, 2015, cash and cash equivalents in the fund financial statements of the District consisted of the following:

	Cash and Cash Equivalents
Checking account	\$437,983.
TOTAL	\$437,983.

Custodial Credit Risk:

Custodial credit presents a risk that in the event of a bank failure, the School District's deposits may not be returned to it. The School District's formal policy regarding custodial credit risk is in compliance with N.J.S.A. 17:9-41 et seq. that the School District deposit all public funds in public depositories protected from loss under the provisions of GUDPA Act as previously described.

The District does not place a limit on the amount that may be invested in any one issuer. As of June 30, 2015, the District's bank balance of \$438,160 was insured or collateralized as follows:

Insured by Depository Insurance	\$252,991.
Collateralized under GUDPA	185,169.
TOTAL	\$438,160.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment.

Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligations. The District does not have a policy that restricts investment choices beyond Title 18A:20-37.

NOTE 4. CAPITAL RESERVE ACCOUNT

A capital reserve account was established by New Jersey school districts for the accumulation of funds for capital outlay expenditures in subsequent fiscal years. The Capital Reserve Account is maintained in the General Fund and its activity is included in the General Fund annual budget. Funds placed in the capital reserve account are restricted to capital projects in the district's approved Long Range Facilities Plan (LRFP). Upon submission of the LRFP to the department, a district may deposit funds into the capital reserve at any time upon board resolution through the transfer of undesignated, unreserved general fund balance that is anticipated in the budget certified for taxes. Post-April, 2005 transfers must be in compliance with P.L.2005, C73 (S1701). Pursuant to N.J.A.C. 6A:23A-14.1(g) the balance in the account cannot at any time exceed the local support cost of uncompleted capital projects of \$778,082 as shown in the approved LRFP.

Total Withdrawals	0.
Ending balance, June 30, 2015	\$21,888.

NOTE 5. MAINTENANCE RESERVE

The Maintenance reserve account is used to accumulate funds for the required maintenance of a facility in accordance with the EFCFA (*N.J.S.A. 18A:7G-9*) as amended by P.L. 2004, c. 73 (S1701). Districts may increase the balance in the maintenance reserve account by appropriating funds in the annual general fund budget certified for taxes (*N.J.A.C. 6A:23-2.14*) or by transfer by board resolution at year end of any anticipated revenue or unexpended line item appropriations, or both.

The activity of the maintenance reserve for the July 1, 2014 to June 30, 2015 year is as follows:

Beginning Balance July 1, 2014	\$27,495.
Deposits – Board Resolution	0.
Withdrawals – Board Resolution	0.
Ending balance June 30, 2015	\$27,495.

The June 30, 2015 maximum maintenance reserve amount is \$85,800.

Total	<u>\$23,170.</u>	<u>\$0.</u>	<u>\$1,601.</u>	<u>\$21,569.</u>	<u>\$1,174.</u>

A. Bonds Payable:

Bonds are authorized in accordance with State laws by the voters of the municipality through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Board are general obligation bonds.

As of June 30, 2015, the Board had no serial bond outstanding, nor were there any authorized but not issued bonds.

B. Capital Leases Payable:

The District had no capital leases in force during the 2014-2015 year.

NOTE 9. PENSION PLANS

Description of Plans – All required employees of the District are covered by either the Public Employees’ Retirement System or the Teachers’ Pension and Annuity Fund which have been established by state statute and are administered by the New Jersey Division of Pensions and Benefits (Division). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System and the Teachers’ Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey, 08625 or on the internet at <http://www.state.nj.us/treasury/pensions/annrprts.shtml>.

Teachers’ Pension and Annuity Fund (TPAF) – The Teachers’ Pension and Annuity Fund was established as of January 1, 1955, under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers’ Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, 100% of employer contributions are made by the State of New Jersey on behalf of the District and the systems’ other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional and certified.

NOTE 9. PENSION PLANS (Cont'd)

Summary of Significant Accounting Policies- For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Teachers' Pension and Annuity Fund (TPAF) and additions to/deductions from the TPAF's fiduciary net position have been determined on the same basis as they are reported by the TPAF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The employer contributions for the district are legally required to be funded by the State in accordance with N.J.S.A. 18:66-33. Therefore, the district (employer) is considered to be in a special funding situation as defined by GASB Statement No. 68 and the State is treated as a nonemployer contributing entity. Since the district (employer) does not contribute directly to the plan (except for employer specific financial amounts), there is no net pension liability or deferred outflows or inflows to report in the financial statements of the district. However, the state's portion of the net pension liability that was associated with the district was \$2,623,213 as measured on June 30, 2014 and \$2,613,950 as measured on June 30, 2013.

For the year ended June 30, 2015, the District recognized pension expense of \$141,153 and revenue of \$141,153 for support provided by the State. The measurement period for pension expense and revenue reported in the district's financial statements (A-2) at June 30, 2015 is based upon changes in the collective net pension liability with a measurement period of June 30, 2013 through June 30, 2014. Accordingly, the pension expense and the related revenue associated with the support provided by the State is based upon the changes in the collective net pension liability between July 1, 2013 and June 30, 2014.

Although the district does not report net pension liability or deferred outflows or inflows related to the TPAF, the following schedule illustrates the collective net pension liability and deferred items and the State's portion of the net pension liability associated with the district. The collective amounts are the total of all New Jersey local governments participating in the TPAF plan.

	6/30/2013	6/30/2014
Collective deferred outflows of resources	\$	\$2,306,623,861.
Collective deferred inflows of resources		1,763,205,593.
Collective net pension liability (nonemployer-State of New Jersey)	50,539,213,484.	53,446,745,367.
State's portion of the net pension liability that was associated with the district	2,613,950.	2,623,213.

Actuarial assumptions – The total pension liability for the June 30, 2014 measurement date was determined by an actuarial valuation as of July 1, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. This actuarial valuation used the following actuarial assumptions, applied to all periods in the measurement:

Inflation:	2.5%
Salary Increases:	Varies based on experience
Investment Rate of Return:	7.90%

Mortality rates were based on the RP-2000 Health Annuitant Mortality Table for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active members are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvements for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2009 to June 30, 2012.

Long-Term Expected Rate of Return – In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in the TPAF's target asset allocation as of June 30, 2014 are summarized in the following table:

<i>Asset Class</i>	<i>Target Allocation</i>	<i>Long-Term Expected Real Rate of Return</i>

Discount rate: The discount rate used to measure the State's total pension liability was 4.68% and 4.95% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers

(State of New Jersey) will be made based on the average of the last five years. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2027. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2027, and the municipal bond rate was applied to projected benefit payments after that date.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. Since the District's has no proportionate share of the net pension liability because of the special funding situation, the district would not be sensitive to any changes in the discount rate. Detailed information about the pension plan's sensitivity of the collective net pension liability to changes in the discount rate is available in the separately issued State of New Jersey Division of Pensions and Benefits financial report at <http://www.nj.gov/treasury/pensions/pdf/financial/gasb68-tpaf15.pdf>

Pension plan fiduciary net position. Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Division of Pensions and Benefits financial report at <http://www.nj.gov/treasury/pensions/financial-rpts-home.shtml>.

Public Employees' Retirement System (PERS) – The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Summary of Significant Accounting Policies – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the PERS and additions to/deductions from PERS fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the District reported a liability of \$195,111 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2014, and the total pension liability to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2013, which was rolled forward to June 30, 2014. The total pension liability for the June 30, 2013 measurement date was determined by an actuarial valuation as of July 1, 2013. The District's proportion of the net pension liability is based on the ratio of the contributions as an individual employer to total contributions to the

PERS during the years ended June 30, 2014 and 2013. At June 30, 2014, the District's proportion was 0.00104211% which was an increase of .000021% from its proportionate measured as of June 30, 2013.

For the year ended June 30, 2015, the District recognized pension expense of \$10,650. At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to PERS from the following sources:

NOTE 9. PENSION PLANS (Cont'd)

Actuarial assumptions – The total pension liability in the July 1, 2013 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation:	3.01%
Salary Increases:	
2012-2012	2.15%-4.40% based on age
Thereafter	3.15%-5.40% based on age
Investment Rate of Return:	7.90%

Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 Based on Projection Scale AA.

The actuarial assumptions used in the July 1, 2013 valuation were based on the results of an actuarial experience study for the period July 1, 2008 to June 30, 2011.

Long-Term Expected Rate of Return – In accordance with State statute, the long-term expected rate of return on plan investments is determined by the State Treasurer, after consultation with the Directors of the Division of Investments and Division of Pensions and Benefits, the board of trustees and the actuaries. Best estimates of arithmetic real rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2014 are summarized in the following table.

<i>Asset Class</i>	<i>Target Allocation</i>	<i>Long-Term Expected Real Rate of Return</i>
Cash	6.00%	0.80%
Core Bonds	1.00%	2.49%
Intermediate-Term Bonds	11.20%	2.26%
Mortgages	2.50%	2.17%
High Yield Bonds	5.50%	4.82%
Inflation-Indexed Bonds	2.50%	3.51%
Broad US Equities	25.90%	8.22%
Developed Foreign Equities	12.70%	8.12%
Emerging Market Equities	6.50%	9.91%
Private Equity	8.25%	13.02%
Hedge Funds/Absolute	12.25%	4.92%
Real Estate (Property)	3.20%	5.80%
Commodities	2.50%	5.35%

Discount rate: The discount rate used to measure the total pension liability was 5.39% and 5.55% as of June 30, 2014 and 2013, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.9%, and a municipal bond rate of 4.29% and 4.63% as of June 30, 2014 and 2013, respectively, based on the Bond Buyer Go 20-Bond Municipal Bond Index which includes tax-exempt general obligation municipal bonds with an average of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the average of the last five years of contributions made in relation to the last five years of recommended contributions.

NOTE 9. PENSION PLANS (Cont'd)

Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2033. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2033, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate. The following presents the District's proportionate share of the net pension liability measured as of June 30, 2014, calculated using the discount rate of 5.39%, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (4.39%) or 1-percentage-point higher (6.39%) than the current rate:

	1% Decrease (4.39%)	Current Discount Rate (5.39%)	1% Increase (6.39%)
District's proportionate share of the net pension liability	\$245,456.	\$195,111.	\$152,834.

Pension plan fiduciary net position – Detailed information about the pension plan's fiduciary net position is available in the separately issued State of New Jersey Divisions of Pensions and Benefits financial report at <http://www.nj.gov/treasury/pensions/financial-rpts-home.shtml>.

Defined Contribution Retirement Plan (DCRP) – The Defined Contribution Retirement Program (DCRP) was established as of July 1, 2007 under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007 (N.J.S.A. 43:15C-1 et seq.). The DCRP is a cost-sharing multiple-employer defined contribution pension fund. The DCRP provides eligible members, and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance and disability coverage. Vesting and benefit provisions are established by N.J.S.A. 43:15C-1 et seq.

The contribution requirements of plan members are determined by state statute. In accordance with Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, plan members are required to contribute 5.5% of their annual covered salary. The State Treasurer has the right under current law to make temporary reductions in member rates based on the existence of surplus plan assets in the retirement system; however, statute also requires the return to the normal rate when such surplus pension assets no longer exist.

PERS and TPAF Vesting and Benefit Provisions – The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43.3B, and N.J.S.A. 18A:6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age.

NOTE 9. PENSION PLANS (Cont'd)

The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credit to the members' accounts.

Significant Legislation – Chapter 78, P.L. 2011, effective June 28, 2011 made various changes to the manner in which the Public Employees' Retirement System (PERS) and the Police and Firemen's Retirement System (PFRS) operate and to the benefit provisions of those systems.

Chapter 78's provisions impacting employee pension and health benefits include:

- New members of the PERS hired on or after June 28, 2011 (Tier 5 members) will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of ¼ of 1% for each month that the member is under age 65.
- The eligibility age to qualify for a service retirement in the PERS is increased from age 63 to 65 for Tier 5 members.
- The annual benefit under special retirement for new PFRS members enrolled after June 28, 2011 (Tier 3 members), will be 60% instead of 65% of the member's final compensation plus 1% for each year of creditable service over 25 years but not to exceed 30 years.
- Increases in active member contribution rates. PERS active member rate increase from 5.5% of annual compensation to 6.5% plus an additional 1% phased-in over 7 years. PFRS active member rate increase from 8.5% to 10%. For fiscal year 2012, the member contribution rates increased in October, 2011. The phase-in of the additional incremental member contribution rates for PERS members will take place in July of each subsequent fiscal year.
- The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.
- New employee contribution requirements towards the cost of employer-provided health benefit coverage. Employees are required to contribute a certain percentage of the cost of coverage. The rate of contribution is determined based on the employee's annual salary and the selected level of coverage. The increased employee contributions will be phased in over a 4 year period for those employed prior to Chapter 78's effective date with a minimum contribution required to be at least 1.5% of salary.
- In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Contribution Requirements – The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 (PERS) and N.J.S.A. 18:66 (TPAF) requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 6.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially determined rate in both TPAF and PERS. The current TPAF rate is 6.5% and the PERS rate is 6.5% of covered payroll.

June 30, 2013	33,419.	100%

During the fiscal year ended June 30, 2015, the State of New Jersey contributed \$40,129 to the TPAF for post-retirement benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A:66-66 the State of New Jersey reimbursed the District \$37,414 during the year ended June 30, 2015, for the employer's share of social security contributions for TPAF members, as calculated on their base salaries. The PERS amounts have been included in the fund-based statements as pension expense and the TPAF on-behalf amounts have been included in fund-based statements as revenues and expenditures. The PERS and TPAF amounts have been modified and included in the District-wide financial statements in accordance with GASB Statement No. 68.

NOTE 10. POST RETIREMENT BENEFITS

P.L. 1987, c. 384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund (TPAF) and the Public Employees' Retirement System (PERS), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2014, there were 103,432 retirees receiving post-retirement medical benefits, and the State contributed \$1.04 billion on their behalf. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical benefits changed from a pre-funding basis to a pay-as-you-go basis beginning in Fiscal Year 1994.

The State is also responsible for the cost attributable to P.L. 1992, c.126, which provides employer paid health benefits to members of PERS, and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$165.8 million toward Chapter 126 benefits for 18,122 eligible retired members in Fiscal Year 2014.

GASB statement #45 requires certain disclosures relating to governmental entities obligations for other post-employment benefits (OPEB), which are post-employment benefits other than pensions. The District does not provide post-employment benefits other than pension. Healthcare provided to eligible TPAF and PERS board of education retirees through the NJ State Health Benefits Program are paid by the State of New Jersey and as such, no district OPEB liability exists.

NOTE 11. COMPENSATED ABSENCES

The District accounts for compensated absences (e.g., unused vacation, sick leave) as directed by Government Accounting Standards Board Statement No. 16 (GASB 16), "Accounting for Compensated Absences". A liability for compensated absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

The liability for vested compensated absences of the governmental activities is recorded as long-term debt in the district-wide statements. The current portion of the compensated absences balance is not considered material to the applicable funds total liabilities, and therefore, is not shown separately from the long-term liability balance of compensated absences.

The liability for vested compensated absences of the proprietary fund types is recorded within those funds as the benefits accrue to employees. As of June 30, 2015, a liability existed for compensated absences in the Food Service Fund in the amount of \$0.

NOTE 12. DEFERRED COMPENSATION

The Board offers its employees a choice of the following deferred compensation plans created in accordance with Internal Revenue Code Section 403(b). The plans, which are administered by the entities listed below, permits participants to defer a portion of their salary until future years. Amounts deferred under the plans are not available to employees until termination, retirement, death or unforeseeable emergency. The plan administrators are as follows:

Lincoln Investments
Sircusa Benefits

NOTE 13. RISK MANAGEMENT

The District is exposed to various types of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance – The District maintains commercial insurance coverage for property, liability, student accident, and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The following is a summary of District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and previous two years:

NOTE 15. CONTINGENT LIABILITIES

The Board is involved in several claims and lawsuits incidental to its operation. In the opinion of the administration and legal counsel, the ultimate resolution of these matters will not have a material adverse effect on the financial position of the District.

NOTE 16. CALCULATION OF EXCESS SURPLUS

In accordance with N.J.S.A. 18A:7F-7, as amended by P.L. 2004, c.73 (S1701), the designation for Reserved Fund Balance – Excess Surplus is a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve General Fund fund balance at the fiscal year end of June 30, if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2015 is \$18,525.

NOTE 17. DEFICIT FUND BALANCES

The District has a deficit fund balances of \$0 in the General Fund and \$0 in the Special Revenue Fund as of June 30, 2015 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that in the event a state school aid payment is not made until the following school budget year, districts must record the delayed one or more June state aid payment as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payment(s) in the subsequent fiscal year, the school district can not recognize the June state aid payment(s) on the GAAP financial statements until the year the State records the payable. Due to the

Pursuant to *N.J.S.A. 18A:22-44.2* any negative unreserved, undesignated general fund balance that is reported as a direct result from a delay in the June payment(s) of state aid until the following fiscal year, is not considered in violation of New Jersey statute and regulation nor in need of corrective action. The District deficit in the GAAP funds statements of \$0 is equal to (or) is less than the last state aid payments.

Of the \$315,833 General Fund balance at June 30, 2015, \$6,867 is reserved for encumbrances; \$0 has been legally reserved for tuition adjustment in accordance with *N.J.A.C. 6A:23A-3.1(f)(8)*; \$18,525 is reserved as excess surplus in accordance with *N.J.S.A. 18A:7F-7* (\$0 of the total reserve for excess surplus has been appropriated and included as anticipated revenue for the year ending June 30, 2016); \$21,888 has been reserved in the Capital Reserve Account; \$27,495 has been reserved in the Maintenance Reserve Account; \$33,698 has been appropriated and included as anticipated revenue for the year ending June 30, 2016; and \$207,360 is unreserved and undesignated.

Debt Service Fund

The District has no Debt Service Fund.

NOTE 19. FUND BALANCE

NONSPENDABLE

As stated in Note 1, the nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. There are no nonspendable fund balances of the School district as of June 30, 2015.

RESTRICTED

As stated in Note 1, the restricted fund balance classification includes amounts that are restricted to specific purposes. Such restrictions, or constraints, are placed on the use of resources by either of the following: (1) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (2) imposed by law through constitutional provisions or enabling legislation. Specific restrictions of the School District's fund balance are summarized as follows:

General Fund:

Excess Surplus: In accordance with *N.J.S.A. 18A:7F-7*, as amended, the designation of restricted fund balance – excess surplus is the result of a required calculation pursuant to the New Jersey Comprehensive Educational Improvement and Financing Act of 1996 (CEIFA). New Jersey school districts are required to reserve general fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2015 is \$18,525., \$0 has been restricted and designated for utilization in the 2015-2016 budget.

Capital Reserve Account: As of June 30, 2015, the balance in the capital reserve account is \$21,888. These funds are restricted for the future approved capital projects of school facilities.

NOTE 19. FUND BALANCE (Cont'd)

For Maintenance Reserve Account: As of June 30, 2015, the balance in the maintenance reserve account is \$27,495. These funds are restricted for the required maintenance of school facilities in accordance with Educational Facilities Construction and Financing Act (EFCFA) (N.J.S.A. 18A:7G-9) as amended by P.L. 2004, c.73 (S1701).

Capital Projects:

The District has no Capital Projects Fund

COMMITTED

As stated in Note 1, the committed fund balance classification includes amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the School District's highest level of decision making authority, which, for the School District, is the Board of Education. Such formal action consists of an affirmative vote by the Board of Education, memorialized by the adoption of a resolution. Once committed, amounts cannot be used for any other purpose unless the Board of Education removes, or changes, the specified use by taking the same type of action (resolution) it employed to previously commit those amounts.

Other Purposes: As of June 30, 2015, the School District had \$6,867 of encumbrances outstanding for purchase orders and contracts signed by the School District but not completed as of the close of the fiscal year.

ASSIGNED

As stated in Note 1, the assigned fund balance classification includes amounts that are constrained by the School District's *intent* to be used for specific purposes, but are neither restricted nor committed. Specific assignments of the School District's fund balance are summarized as follows:

General Fund:

For Subsequent Year's Expenditures: The School District has appropriated and included as an anticipated revenue for the fiscal year ending June 30, 2016, \$33,698 of general fund balance at June 30, 2015.

UNASSIGNED

As stated in Note 1, the unassigned fund balance classification represents fund balance that has not been restricted, committed, or assigned to specific purposes. The School District's unassigned fund balance is summarized as follows:

General Fund:

As of June 30, 2015, the unassigned fund balance of the general fund was \$207,360.

NOTE 21. RETROACTIVE RESTATEMENT OF NET POSITION
Restatement of Prior Period:

The District adopted GASB No. 68 – Accounting and Financial Reporting for Pensions – An amendment of GASB No. 27 during the 2015 fiscal year as required by the pronouncement. This pronouncement requires the district to record its proportional share of the State of New Jersey’s net pension liability on the face of its financial statements as of June 30, 2015 and to record related pension expense in accordance with the pronouncement. In order to correctly reflect pension expense in accordance with GASB No. 68, the beginning Net Position of the district was adjusted to reflect the beginning balance of the net pension liability. Since the measurement date of the net pension liability is June 30, 2014 (as described in Note 8), the restatement adjustments to Net Position relate to the beginning net pension liability measured as of June 30, 2013. Also, in accordance with GASB No. 71 – Pension Transition for Contributions Made Subsequent to the Measurement Date, the district restated its Net Position for pension contributions made after the beginning net pension liability measurement date of June 30, 2013 (deferred outflows).

Net Position (per A-2), June 30, 2014	\$373,136.
Restatement of Net Pension Liability	(195,183.)
Restatement of Deferred Outflows	<u>8,591.</u>
Net Position (per A-2), June 30, 2014 as Restated	<u>\$186,544.</u>

INFORMATION – Part III**

**GREENWICH TOWNSHIP SCHOOL DISTRICT
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
PENSION SCHEDULES
JUNE 30, 2015**

Note 1. Teachers' Pension and Annuity Fund (TPAF)

Changes of benefits terms. The vesting and benefits provisions are set by N.J.S.A. 18A:66. TPAF provides retirement, death, and disability benefits. All benefits vest after years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of TPAF. Members are always fully vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the member's accounts.

Changes of assumptions. Mortality rates were based on the RP-2000 Health Annuitant Mortality for Males or Females, as appropriate, with adjustments for mortality improvements based on Scale AA. Pre-retirement mortality improvements for active member are projected using Scale AA from the base year of 2000 until the valuation date plus 15 years to account for future mortality improvement. Post-retirement mortality improvement for non-disabled annuitants are projected using Scale AA from the base year of 2000 for males and 2003 for females until the valuation date plus 7 years to account for future mortality improvement.

Note 2. Public Employees' Retirement System (PERS)

Changes of benefits terms. The vesting and benefits provisions are set by N.J.S.A. 43:15A. PERS provides retirement, death, and disability benefits. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service or under the disability provisions of PERS.

Changes of assumptions. Mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (setback 1 year for females) with adjustments for mortality improvements from the base year of 2012 Based on Projection Scale AA.

Note 3. Schedule of School District's Proportionate Share of the Net Pension Liability – PERS/TPAF and Schedule of Employer's Contribution for PERS/TPAF

The information presented in these required supplementary schedules was determined as part of the audit of the State of New Jersey Division of Pension and Benefits. Additional information for the pension schedules can be found in the notes to the financial statements.

Note: NJSA 18A:7F-5d limits the amount that the district can submit for a general fund tax levy. The levy when added to other components of the district's net budget may not exceed the pre-budget year net budget by more than the spending growth limitation calculated as follows: the pre-budget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

- a The district's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net valuation taxable
- b Rates for debt service are based on each year's requirements

Total Direct & Overlapping Debt			<u><u>\$ 1,254,972.</u></u>

So Assessed value data used to estimate applicable percentages provided by County Board of Taxation. Debt outstanding data provided by each government unit.

No Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Greenwich Twp. This process recognizes that when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore, responsible for repaying the debt, of each overlapping payment.

a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the district's boundaries and dividing it by each unit's total taxable value.

SINGLE AUDIT SECTION

K-1

REPORT ON INTERNAL CONTROL
OVER FINANCIAL REPORTING AND ON COMPLIANCE AND
OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS

Independent Auditor's Report

Honorable President and
Members of the Board of Education
Greenwich Township School District
County of Cumberland, New Jersey

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Board of Education of the Greenwich Township School District in the County of Cumberland, State of New Jersey, as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise Greenwich Township Board of Education's basic financial statements, and have issued our report thereon dated December 14, 2015.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Greenwich Township Board of Education's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Greenwich Township Board of Education's internal control. Accordingly, we do not express an opinion on the effectiveness of the Greenwich Township Board of Education's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weakness or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Greenwich Township Board of Education's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards*, in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL
CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133 AND
NEW JERSEY OMB CIRCULAR 04-04

Independent Auditor's Report

Honorable President and
Members of the Board of Education
Greenwich Township School District
County of Cumberland, New Jersey

Report on Compliance for Each Major State Program

We have audited the Board of Education of the Greenwich Township School District, in the County of Cumberland, State of New Jersey, compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement* and the *New Jersey State Aid/Grant Compliance Supplement* that could have a direct and material effect on each of Greenwich Township Board of Education's major state programs for the year ended June 30, 2015. Greenwich Township Board of Education's major state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to each of its federal and state programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Greenwich Township Board of Education's major state programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*; and the audit requirements as prescribed by the Office of School Finance, Department of Education, State of New Jersey; and New Jersey OMB's Circular 04-04, *Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid*. Those standards, OMB Circular A-133 and New Jersey OMB's Circular 04-04, require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major state program occurred. An audit includes examining, on a test basis, evidence about the Greenwich Township Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major state program. However, our audit does not provide a legal determination of the Greenwich Township Board of Education's compliance.

Opinion on Each Major State Program

In our opinion, the Board of Education of the Greenwich Township School District, in the County of Cumberland, State of New Jersey, complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major state programs for the fiscal year ended June 30, 2015.

Report on Internal Control Over Compliance

Management of the Greenwich Township Board of Education is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Greenwich Township Board of Education's internal control over compliance with the types of requirements that could have a direct and material effect on each major state program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major state program and to test and report on internal control over compliance in accordance with OMB Circular A-133, and the New Jersey State Aid/Grant Compliance Supplement, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Greenwich Township Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal or state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133 and NJ OMB Circular 04-04. Accordingly, this report is not suitable for any other purpose.

The Accompanying Notes to Schedules of Expenditures of State Awards and Financial Assistance are an Integral Part of this Schedule.

Greenwich Township School District
Notes to the Schedules of Expenditures of Awards and Financial Assistance
June 30, 2015

NOTE 1.GENERAL

The accompanying schedules of expenditures of federal awards and state financial assistance include federal and state award activity of the Board of Education, Greenwich Township School District. The Board of Education is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies is included on the schedule of expenditures of federal awards and state financial assistance.

NOTE 2.BASIS OF ACCOUNTING

The accompanying schedules of expenditures of awards and financial assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the food service fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

NOTE 3.RELATIONSHIP TO BASIC FINANCIAL STATEMENTS

The basic financial statements present the general fund and special revenue fund on a GAAP basis. Budgetary comparison statements or schedules (RSI) are presented for the general fund and special revenue fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year, whereas for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The general fund is presented in the accompanying schedules on the modified accrual basis with the exception of the revenue recognition of the one or more deferred June state aid payments in the current budget year, which is mandated pursuant to N.J.S.A. 18A:22-44.2. For GAAP purposes, that payment is not recognized until the subsequent budget year due to the state deferral and recording of the one or more June state aid payments in the subsequent year. The special revenue fund is presented in the accompanying schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The special revenue fund also recognizes the one or more state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-4.2

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$(120) for the general fund and \$0 for the special revenue fund. See Exhibit C-3for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the general and special revenue funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as follows:

	<u>Federal</u>	<u>State</u>	<u>Total</u>
General Fund	\$ 0.	\$ 531,224.	\$ 531,224.
Special Revenue Fund	63,447.	390.	63,837.
Food Service Fund	23,253.	475.	23,728.
Total Financial Assis.	<u>\$ 86,700.</u>	<u>\$ 532,089.</u>	<u>\$ 618,789.</u>
